Markandeyulu Pathalla
SDET | Playwright + Selenium Automation Engineer | API Testing
6303883093 | pathallamarkandeyulu7814@gmail.com | LinkedIn

Professional Summary

Automation Test Engineer (SDET) with 2 years of experience in UI and API automation testing. Expertise in Playwright (TypeScript) and Selenium with strong experience in building scalable automation frameworks using POM and TestNG. Skilled in REST API testing, CI/CD integration, and parallel execution. Passionate about delivering high-quality, end-to-end automation solutions.

Technical Skills

Automation: Playwright (TypeScript), Selenium WebDriver
Frameworks: TestNG, POM, Data-Driven, Hybrid Framework
API Testing: Rest Assured, Postman
CI/CD: Jenkins, Maven
Languages: Java, TypeScript
Databases: MySQL
Version Control: Git

Tools: JIRA, QTest, GitHub, Jenkins

Other Skills: Manual Testing, Test Scenarios, Test Cases, Defect Reporting, Agile/Scrum

---

Professional Experience

SDET / Automation Test Engineer – Cognizant Technology Solutions

Duration: 2 years

• Developed and maintained scalable UI automation using Playwright (TypeScript) and Selenium
• Built scalable automation framework using POM, TestNG, and reusable components
• Automated 100+ regression test cases reducing execution time from 8 hours to 30 minutes
• Reduced manual testing effort by ~60% through automation
• Integrated automation suite with Jenkins CI/CD pipeline
• Performed API testing using Postman and Rest Assured
• Enabled parallel execution for faster test cycles
• Designed and executed end-to-end (E2E) test automation
• Worked in Agile/Scrum environment with sprint-based delivery
• Performed cross-browser testing and validation
• Contributed to improving test coverage and reducing production defects

---

Projects

Practo Website Automation | Playwright + Selenium | TestNG

• Developed end-to-end automation for critical workflows including doctor search, appointment booking, and filter validation

• Designed and implemented automation framework using Page Object Model (POM) with reusable components

• Automated multiple regression test scenarios improving test coverage

• Implemented data-driven testing using TestNG for handling multiple test datasets

• Executed cross-browser testing to ensure consistent UI behaviour across browsers

• Improved regression testing efficiency and reduced manual effort

• Integrated test execution with Jenkins CI/CD pipeline for automated runs

---

Education

B. Tech in Mechanical Engineering – SRKR Engineering College, Bhimavaram

CGPA – 7.42
